Animal Counting Coloring Pages

A simple plan, answer key and trustworthy reading.

Suggested level: Ages 3-5 | Counting objects and matching a total to a numeral

GET READY

- Choose one sheet and read the prompt aloud.
- Touch one animal for each number you say.
- Color the animals, then say or write the total.

SHEET-BY-SHEET NOTES

01 / Count 3 Fish: 3 fish.

02 / Count 4 Ducks: 4 ducks.

03 / Count 5 Sheep: 5 sheep.

04 / Count 6 Rabbits: 6 rabbits.

05 / Count 8 Butterflies: 8 butterflies.

06 / Count 10 Ladybugs: 10 ladybugs.

TEACHING NOTES

- Start with 3 or 4 animals. Offer 8 and 10 when the child is ready.
- An adult may write the child's spoken total. Counting each animal once matters more than neat numerals.
- Ask, 'How do you know you counted them all?' Colors are the child's choice.
