Color three animals that can live in a forest.

FOREST

Look for animals that can find food or shelter among trees.

Deer

Owl

Squirrel

Bottlenose dolphin

Circle the animals that belong. Leave the other animal uncolored.

Name: _____

Animal Habitat Coloring Activities / 05

Forest: Try It Yourself

Color three animals that can live in a forest.

FOREST

Deer

Owl

Squirrel

Bottlenose dolphin

Name: _____

Animal Habitat Coloring Activities / 06

Animal Habitat Coloring Activities

A simple plan, answer key and trustworthy reading.

Suggested level: Ages 3-5 with an adult | Matching animals to places they can live

GET READY

- Talk about the habitat named at the top.
- Find three animals that could live there.
- Color those animals and explain one choice.

SHEET-BY-SHEET NOTES

01 / Ocean: With a Clue: Bottlenose dolphin, sea turtle, and octopus. Leave the rabbit uncolored.

02 / Ocean: Try It Yourself: Bottlenose dolphin, sea turtle, and octopus. Leave the rabbit uncolored.

03 / Pond: With a Clue: Duck, frog, and pond fish. Leave the bottlenose dolphin uncolored.

04 / Pond: Try It Yourself: Duck, frog, and pond fish. Leave the bottlenose dolphin uncolored.

05 / Forest: With a Clue: Deer, owl, and squirrel. Leave the bottlenose dolphin uncolored.

06 / Forest: Try It Yourself: Deer, owl, and squirrel. Leave the bottlenose dolphin uncolored.

TEACHING NOTES

- Use pages 01, 03, and 05 with the spoken clue; try pages 02, 04, and 06 without it.
- These are examples, not exclusive homes. Animals can use several habitats; species and local conditions matter.
- The dolphin is a marine bottlenose dolphin. Pond examples include ducks, pond-living frogs, and freshwater fish.
